

May 5, 1975

PRESIDENT: (Mike off)

CLERK: 32 ayes, Mr. President.

PRESIDENT: (Mike off)

SENATOR MARVEL: OK. The next bill is LB 604. You will find on Page...I am sorry.

CLERK: Mr. President, LB 604 introduced by the Appropriations Committee and signed by the members thereof. Read title.

SENATOR MARVEL: Now I speak on a motion to advance the bill to E & R Initial and we are talking here about the court system, the Governor, Lieutenant Governor, Attorney General, Department of Revenue, Military Department, Department of Administrative Services, the Department of Economic Development, Public Employees Retirement Board, these type of organizations which represent 41.7 million dollars in General Fund money. Of that 41.7 million, 22.7 million is in the Department of Revenue itself and most of that has to do with the...I can't think of the... Homestead Exemption Fund. You will find that it starts on Page 11 of the yellow book and on Page 3 of the Governor's bill 554. If you are with me on Page 2, it starts with the administration under the Supreme Court, the administration of the court system which dates back to two bills, one LB 1032 of two years ago. The court system itself is on Page 3, statewide probation system starts on the bottom of Page 3. The office of Governor is on Page 5 which includes on line 23 \$36,000 for fees to various conferences. Office of Lieutenant Governor on the next page, Attorney General on Page 6, Section 6. For your information, the Homestead Exemption figure I was talking about is on Page 7, line 17 and 18, General Fund, \$17,800,000 and we usually pay after the fact. There is usually money coming in towards the last in this area. The Military Department on Page 8, the Governor's Emergency Fund which is on lines 11 and 12, which also includes, as indicated, a reappropriated amount of about \$200,000. The Board of Educational Lands and Funds on Page 9, they supervise about a million and a half million...one and a half million acres. On Page 10, and I would like to spend just a moment on this, on Page 10, we have got the Department of Administrative Services. On line 7, there is \$100,000 earmarked for, and there are listed five different subdivisions there. The first has to do with data processing projects. Those projects set up in the Secretary of State's office, the Department of Veteran's Affairs. Under B, an attempt to improve the accounting system. C, also, includes accounting changes. D includes workflow and organizational analysis. E includes a provision that where more than one agency, where several agencies get together in the area of planning, it will be coordinated through the Department of Administrative Services. F includes, and you will find this throughout the bill, where we have any department interested in criminal justice, the development of a criminal justice information system. On the next page, Page 12, line 9 talks about a Record Management Division under the Secretary of State's office so that they are up to date with the microfilming of their records so that when the Departments move over to the State Office
